Last updated: 08/01/2016

Locations shown in blue/bold indicate that one to one training sessions (such as puppy start right sessions) are also available in these locations. I may be able to offer one to one training sessions (eg puppy start right sessions) in other locations (at the callout charge specified) if I am able to combine it with a behavioural consultation in roughly the same area.

There is no callout charge for a clinic appointment (clinic appointments will be available from February 2016).

For postcodes not listed or those listed as "POA", please enquire about cost and availability of home visits to your location.
